PROJECTS

Project 1

Personal Portfolio

- Immersive Portfolio: Explore my professional journey through a captivating portfolio website.
- Dynamic Design: Crafted with HTML, CSS, and JavaScript, the site offers an engaging experience. Whether on desktop or mobile, it adapts gracefully.
- Creative Animations: Blend of creativity and technical finesse with seamless GSAP-powered animations. Interactive sections showcase skills, projects, and contact in a modern format.
- Explore the Portfolio ➤ [Portfolio](#)

Project 2

Weather App

- Responsive Weather App: Developed a user-friendly weather application with a responsive design for seamless cross-device use.
- OpenWeather API Integration: Utilized the free OpenWeather API for real-time weather data, ensuring accurate and up-to-date information.
- Dynamic Features: Implemented automatic detection of the user's location, search functionality for specific locations, and a dynamic interface for real-time updates on temperature, conditions, and forecasts.
- Explore the Weather App ➤ [Weather App](#)

Project 3

Image Generator App

- Image Generator App: Engineered an app utilizing the Unsplash API for dynamic, visually impactful image generation.
- API Integration: Implemented seamless integration of Unsplash API, enhancing user experience.
- Explore the Image Generator App ➤ [Image Generator App](#)

Project 4

Music Player App

- Music Player App Development: Designed and implemented a feature-rich music player app with intuitive controls for play, pause, forward, and backward functionalities.
- User-Interactive Features: Integrated user-friendly controls, allowing seamless song navigation through click actions for forward, backward, and playback functions.
- Explore the Music App ➤ [Music App](#)

SKILLS

c++ ● ● ● ● ●

JS ● ● ● ● ●

CSS ● ● ● ● ●

HTML ● ● ● ● ●

MILESTONE

- Solved over 300+ LeetCode challenges, showcasing a deep understanding and creative problem-solving across diverse scenarios.
- Link ➤ [LeetCode](#)
- Participated in coding contests gaining problem-solving skills in competitive programming.
- Hactoberfest 2023 Contributor: Actively engaged in Hactoberfest 2023, contributing substantively to open-source projects.

EDUCATION

BTECH Computer Science

Galgotias University

📅 2022-2026

Secured 9.1 CGPA in 1st year ➤ [Report Card](#)
